1. Visit https://workersandbox.mturk.com/ and register as an Amazon mTurk worker.

2. After login, search “Emotion Analysis on Videos of Presidential Candidates Part X” where X is the group number which we will provide to you. Make sure that the requestor is Hao Yu.

3. Click Accept & Work
4. Inspect the video and answer four questions based on your judgment.
5. For question 1, choose the correct camera angle from three options.

6. Choose the option that best describes the distance between the camera and the candidate.
7. Choose one from positive, neutral, and negative according to your feeling of candidate's facial expression.

Overall, is the candidate's facial expression positive, neutral, or negative? 

Select an option

- Positive 1
- Neutral 2
- Negative 3

8. Choose one from seven emotion categories according to your feeling of candidate’s emotion.

Overall, what is the candidate's emotion?

Select an option

- Afraid 1
- Sad 2
- Disgusted 3
- Angry 4
- Surprised 5
- Hopeful 6
- Happy/joyful 7

9. After finish all the questions, click submit.

10. Accept the Requester's HIT before working on the next video. Here click Accept.
11. Choose Auto-accept next HIT so that you do not need to accept each time.
