

Looking for a rewarding summer experience?

Want to learn new things while having fun?

Join us for **Summer Pathways**, a week-long summer program July 13-20, 2007 for girls interested in science, math, technology, or engineering. You'll live in a Boston University dormitory and experience a week packed with exploration, discovery, meeting new people, and fun!

Activities include:

- ⓐ Hands-on science and technology activities (e.g. global positioning systems (GPS), wings and flight, neuroscience, biomechanics)
- ⓐ Visits to biotechnology companies and museums
- ⓐ Career and college admissions panels
- ⓐ Whale watching, scavenger hunt, and rock climbing

Girls interested in science, math, technology, or engineering and who will be juniors in Fall 2007 are encouraged to apply. This program is free to students with financial need. A short application and two teacher recommendations are required. To apply, go to <http://www.bu.edu/lernet/spathways>.
